WEB DESIGN & DIGITAL EXPERIENCE SUMMARY

Web design and digital experience specialist with experience developing and managing websites and digital platforms across higher education and medical education environments. Focused on website design and development, user experience, digital accessibility, and analytics-informed improvements, with an emphasis on creating accessible, intuitive digital experiences that support information discovery and learning.

EXPERIENCE

UF College of Medicine – Quality and Patient Safety Initiative (QPSi)

Website Management Specialist | Gainesville, FL | March 2025 – Present

• Lead ADA compliance auditing and remediation across QPSi, Knowledgebase, and CME platforms, identifying accessibility gaps and implementing WCAG-aligned improvements
• Manage QPSi website updates including content, layout, banners, graphics, quarterly metrics, featured projects, news posts, and ongoing UX improvements across digital platforms
• Provide UX/UI guidance across ConneQtor, QPSi, and Knowledgebase platforms, improving usability, accessibility, and visual consistency
• Pull and analyze engagement metrics across QPSi, Knowledgebase, and CME platforms to inform UX prioritization, content updates, and user engagement strategy
• Drive communications strategy development, including roadmap planning and implementation tracking for digital outreach initiatives
• Design digital assets including homepage banners, knowledge base visuals, maps, templates, and campaign materials to support content clarity and engagement
• Organize UX and content workstreams using project tracking systems to improve visibility, coordination, and workflow efficiency across teams
• Support cross-functional collaboration with leadership, faculty, and communications teams to align digital platforms with organizational goals

---

University of Florida Office of Real Estate

Website & Database Specialist | Gainesville, FL | Nov 2017 – Sep 2023, Oct 2024 – Mar 2025

• Managed WordPress website design and content updates, improving usability, structure, and accessibility of digital information systems
• Led full website migration from Terminalfour to WordPress, ensuring continuity of UX structure and platform functionality
• Increased website traffic by 240% through SEO optimization and iterative content improvements
• Used Google Analytics to evaluate user behavior and inform updates to site structure, content placement, and engagement strategy
• Developed and delivered training materials and led internal training sessions to support system adoption and workflow efficiency
• Collaborated across teams to standardize digital content and improve consistency across platforms and systems

---

Varsity Tutors

Mathematics Tutor | Remote | Sep 2023 – Oct 2024

• Delivered one-on-one and small group instruction in mathematics using digital learning tools including Zoom and LMS platforms
• Adapted instructional approaches to learner needs across grades 6–11 and multiple curriculum standards
• Created structured learning materials and exercises to support comprehension, retention, and problem-solving development
• Supported students in standardized test preparation and performance improvement

---
